

# Explore the World of Hydro Systems International

Manufacturing several families of water appliances for the office, home, or restaurant. Provide chilling, heating, carbonation and water treatment for the discriminating user. Precision designed and crafted in Recanati, Italy.

## JET™ SERIES

Countertop

Under-counter

JET™ is professional appliance, in compact form, that supplies large quantities of chilled still, sparkling, or hot water. Available in countertop and under-counter models

## NIAGARA™ SERIES

NIAGARA™ commercial-duty professional systems, in floor-standing, under-counter, and countertop models. With a range of available filtration options for chilled & carbonated water.

## RIO® SERIES

COSMETAL quality and features with more traditional styling

## AVANT® SERIES

Polished stainless steel tank is removable for easy and effective sanitation.

Built-in hygienic no-spill system.

Available cabinet colors

Orange

White

Grey

Light Green

Blue

## CONNECT® SERIES

Water coolers for premium-quality chilled, hot, or carbonated water.

WATER BLOCK Prevents water over flow from system damage or abuse

Advanced product features provide superior performance and value.

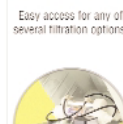

Patented UV disinfection system protects the dispensing area.

Direct Chill feature cools without an open storage tank providing better sanitation.

Ergonomic dispensing buttons are easier to reach and activate.

Easy access for any of several filtration options.

Sparkling carbonated water options for all models.

# COSMETAL WATER COOLER SPECIFICATIONS

## CONNECT®, RIO®, & AVANT® series
